

## A little guide

Thank you very much for participating in an Online Beer Tasting by CRAFT BEER COMPANY STUTT GART. We have prepared a little guide for you about the preparation and procedure of the tasting.

### Unpacking

- Does the parcel contain all the bottles and cans?  
There should be **6** bottles resp. cans.
- The beer should be chilled in a fridge or cellar until the event, in other words they should be stored in a **cold** and **dark** environment.
- Bottles/cans should be stored **upright** if possible, in order to let sediments to settle to the ground.

### Preparation

- You will need a bulbous glass for the tasting, like a red or white wine glass. A professional Craft Beer glass would be perfect, of course, if available.
- If you have any questions about the tasting prior to the it, feel free to contact us – E-mail to **kontakt@craftbeerco.de**
- If you are unsure whether your smartphone supports reading QR codes, please check out in advance. Some brands require a dedicated app to read them.
- You will your business laptop resp. business MS Teams account to join the event.
- You might want to print the beer facts document in advance.

### The event

- Start of the event is Saturday 31<sup>st</sup> July 2021, 6pm
- You might want to fetch the beer facts document to find key figures about the beers, and to have QR codes ready for votings.
- Please have your smartphone ready for beer votings.
- Please continue chilling the beers even when event stats. We will take them out of cooling together at the appropriate time.
- All documents and slides can be download from **event's website** (check out link below), during or after the event.
- Please don't forget to give feedback about the event through our **feedback page** (you find the link below).
- The tasting is conducted via **MS Teams** meeting using business infrastructure.
